

Soraj offers various types of heat control panels for monitoring electrical heating system, ovens & electrical furnace, which can be used by the OEMs or end users. As per auto cad drawing panels are fabricated using high grade steel & are duly powder coated. As per customer requirement we provide the exact size, volume, air circulation arrangement & gasketing. As per requirement & application of heating system, proper heat regulator, temperature controller or PID controller is selected. We can supply either single phase or three phase load.

## Salient Features

<b>Main Controller</b>	<b>: Heat Regulator/ ON-OFF Controllers/ PID Controllers/ Ramp &amp; Soak Controllers</b>
<b>Operating Supply</b>	<b>: Single Phase / Three Phase</b>
<b>Safety Devices</b>	<b>: MCB / MCCB / ELCB / RCCB</b>
<b>Status Indicator</b>	<b>: Analog/ Digital Voltmeter, Ammeter, LED etc</b>
<b>Final Controlling Element</b>	<b>: Electro mechanical Contactors / Solid State Relays Thyristor Drive</b>
