

CORROSION PROTECTION

EazyMaintenance MH

- Rust penetration & cleaning,
- Degreasing, Moisture proofing,
- Contactors, Relays, Switches
- Windings, Coils, Transformers,
- Insulators re-opening rusted.

#21501- Mechanical Helper (500ml) : Non-toxic, silicone free, ozone friendly, Safe for metal, varnishes, rubber, plastic & fabric. Low surface tension product that has superior surface "wettability" & coverage. technically superior, multi - use, also useful for displacing moisture, restoring 'IR' valves, anti-corrosion & light lubrication.

#21502 - Rust Inhibitor (500ml) :Prevents rusting and corrosion of bearings, gears, rotors, gauges... during indoor storage, usage, as well as shipment. Uniquely absorbs surface moisture for 100% reliable protection of parts exposed to high humidity and corrosive chemical fumes. Unlike conventional oils, does not overlay on surface moisture, but first absorbs, neutralises and then provides protection. Lubricant compatible. Removal not required.

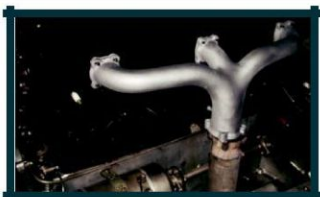

EazyMaintenance RI

- All precision part, tools, dies.

EazyMaintenance CG

- Prevents bi-metallic corrosion,
- Arcing, Over Heating, Jamming,
- Bus-bar isolator jaws,
- Heavy circuit breakers, Conductive rails.

#21503 - Cold Galvanizing (500ml) :Conductive, 100% dry graphite coating, prevents bi-metallic corrosion, power losses & overheating on high connections. Non-ageing and inert coating performs even upto grid voltages.

#21504 - High Temperature (500ml) :High purity against aluminum enriched coating, fast drying to provide hard lasting protection against burn off, chip or peel at high temperatures. Resist heat till 600°C.

EazyMaintenance HT

- Heater, Furnace, Stove Pipe, Kiln,
- Chimney, Header, Oven,
- Engine, Exhaust manifold.

EazyMaintenance PC

- Molds, Dies,
- Precision machined surfaces,
- Aluminum doors,
- Gauges etc

#21505 - Peelable Coat (500ml) :Easy to remove, waxy peelable coat to protect components during shipment and storage. Does not require any solvent for cleaning or removal, just can be easily peeled off from any of the edges. Protects against scratches, stains and contamination due to paint spray, dirt and dust.

#21506 - Rust Convertor (500ml) :Re-converts rust to metal, consolidating & passivating the substrate, and stopping the unchecked growth of the existing surface rust. Prevents the adhesion failure of conventional paints, thus protecting against corrosion, cracks, leakages etc. Enhances welding strength.

EazyMaintenance RC

- Storage tanks, Pipelines, Pumps,
- Transformers, Clamps, Brackets,
- Load holding structure,
- Power transmission.

MAINTENANCE

#21511- Pen Oil (500ml) : Penetrates rust & re-opens severely rusted assemblies. Ultra specialized specific use formulation with uniquely low surface tension and unmatched penetration. Has more reliable performance and is required in lesser quantities. Non acidic and non corrosive formulation. Superior quality & economy. Also useful in bearing maintenance applications (to clean caked up/old; grease and residues).

EazyMaintenance PO

- Non-destructive re-opening of frozen,
- Rusted, Seized assemblies,
- Cleaning of precision moving etc

EazyMaintenance BD

- All types of conveyor,
- Industrial and automotive belts

#21512 - Belt Dressing (500ml) : Prevents hardening, heat ageing, cracking, elongation and gripping failures of drive belts. Coated drive belts will last for at least 50% longer. Protects both during belt operation and belt storage. Very useful in applications where drive belts are exposed to high heat, humidity and lube oils. Easy to apply with long lasting effect.

CLEANERS

#21521 - Gasket Remover (500ml) : Designed to effectively & safely remove dirt, grease & varnish. Simply spray on, allow to set for 15 minutes & flush with water. Safe 100% bio-degradable, non-corrosive & non-staining. Penetrates to the metal for excellent & highly economical degreasing.

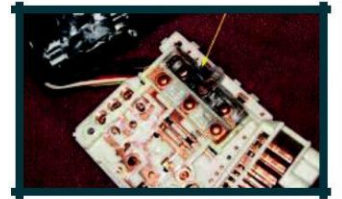

EazyMaintenance GR

- Compressors, Burner Nozzles,
- Engine Parts, Gaskets,
- Painted Surfaces,
- Cardmium Compound.

EazyMaintenance CR

- Carbon deposits from Contactors,
- Relays, Commutators, Insulators,
- Bus-Bars.

#21522 - Carbon Remover (500ml) : Uniquely penetrates & 'Lifts off' carbonaceous coatings, thick varnishes, acrylic coatings, adhesives etc. User & surface safe. Minimum labour input. Highly effective on all types of coatings & deposits.

#21523 - Rust Remover (500ml): Instantly removes rust on the metal substrate. Wash with clean water and dry the surface immediately after use. multipurpose rust cleaner on the metal substrate. It cleans tarnish, oxidation, stains, finger prints and scale from iron, steel, copper, brass, and aluminium.

EazyMaintenance RR

- Pipeline, Valve, Motor,
- Boiler, Pump
- Chain, Compressor
- Flange.

EazyMaintenance BS

- Machinery Parts,
- Engines,
- Bearings, Metal Molds,
- Dies.

#21526 - Bearing Solvent (500ml) : Synthetic heavy duty cleaner cum degreaser. fast drying & residueless. Excellent cleaning action. It starts working immediately on contact breaking down and dissolving even the most stubborn contaminants without damaging the base metal. It evaporates quickly and does not leave residue.

ANTI - SEIZE

#21531- Copper Anti-seize (500ml) : Copper based anti-seize lubricant for high pressure and high temperature applications, Resists temperature till 1100°C and prevents galling, metal to metal contact and seizing of threaded components. Easy assembly and disassembly even under corrosive atmosphere and long operational period.

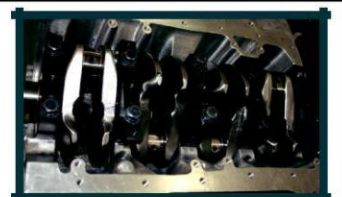

EazyMaintenance CA

- Bolt & Nut, Sliding surface,
- Bushing, Flange fitting, Press fit.

EazyMaintenance DML

Slides & guides, assembly and run-in-lubrication, gasket & belt coating, open gears and conveyors.

#21532 - Dry Moly Lubricant (500ml) : Ultra pure micro refined dry moly coating with the high temperature and extreme pressure protective characteristics of a high grade MOS2 coating. Film is non-conductive and has excellent resistance to water.

EazyMaintenance CLS

- Hoist chains, saws, conveyors,
- link and roller assemblies,
- chain drives.

#21541 - Chain Lubricant Spray (500ml) : High grade synthetic oil, black color and heavy duty moly - based high temperature lubricant. Excellent penetration & film adhesion.

#21542 - Rope Lubricant (500ml) :Tough and pliable with extra adhesion. Lubricates as it waterproofs. Weather resistant. Will not become brittle. Withstands extreme temperature and pressure. Penetrates deep into metal pores for complete lubrication. Foaming action ensures total coverage.

EazyMaintenance RL

- Wire Ropes,
- Heavy Duty Drive Chains,
- Die Set Leader Pins, Screw Threads,
- Chucks.

EazyMaintenance DGL

- Degreasing of Metal Molds, Dies,
- Machinery parts.

#21547 - Dry Graphite Lubricant(500ml) : Ready to use solvent designed to replace TCE, CFC, CTC and other chlorinated solvents. Odor less, fast evaporating, non- corrosive, residue less. Recommended for cleaning and degreasing mechanical parts & equipments.

ELECTRICAL MAINTENANCE

CORROSION PROTECTION

#21551 - Battery Terminal Coat (500ml) : Air tight, water proof and acid resistant, anti-sulfation coating. Resistant to heat, gasoline, oil & grease, will not crack or peel when correctly applied on undamaged batteries operating in conditions of medium acidity.

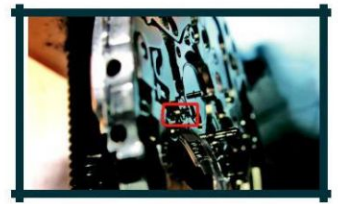

EazyMaintenance BTC

Protecting battery and cable terminals against leakages, acid sulfation and corrosion. Prevents current losses and enhances battery life.

EazyMaintenance MD

- Contactors, Relays, Solenoids,
- Control Terminals, Capacitors,
- Fuse Boxes, Switch Connectors,
- Switchgears, Electronic PCB's.

#21552 - Moisture Displacer (500ml) : Multi application fluid for cleaning, de-watering, preventing corrosion and improving conductivity in electrical and electronic systems. Di-electric product restores electrical properties lost due to moisture, corrosion, dust and carbon. Prevents arcing & sparking and provides long term protection. Specific gravity heavier than '1'.

#21553 - Contact Lube (500ml) : Designed to prevent corrosion & carbon deposition on precision electrical & electronic equipments. Ultra low molecular weight, thermally stable & chemical resistant dry protective film will not pick-up dust & dirt. Reduces contact resistance, provides durable protection and enhances working life & reliability.

EazyMaintenance CL

- "Make Break" systems, contactors,
- Radio Antenna assemblies,
- H.V. breaker assemblies,
- PCB connectors, Plastic Parts,
- Anti-static Lubrication.

MAINTENANCE

#21561- Polyurethane Foam Sealant (750ml) : Multi purpose self expanding foam that fills gap and gets hard with moisture which can also be used as a sealant and void fill in many roofing applications.

EazyMaintenance PUF

- Solution for Expansion, Floor Joints,
- Water Resistant to Wood, Concrete, Metal, Glass & Brick

EazyMaintenance AT

- Bus bar ends, Bushings,
- Insulators, Switch yard equipments.

#21562 - Anti Track (500ml) : Unique air-dry, di-electric coating designed to prevent tracking, arcing and flash overs caused by dust and moisture specifically on bus bar end-bushings and insulators. Weather proof & non-ageing.

#21563 - Dry Graphite Conductive Sealant (500ml) : Conductive 100% dry graphite coating prevents bi-metallic corrosion, power losses & overheating on high connections. Non-ageing and inert coating performs even upto grid voltages.

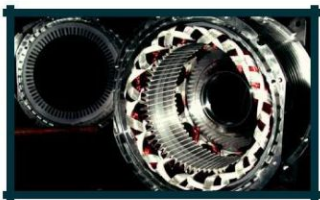

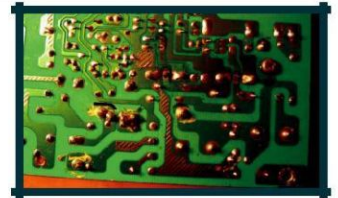

EazyMaintenance DGCS

- Bi-Metallic Corrosion, Arcing,
- Over heating, Jamming,
- Bus Bars and Cable Terminations,
- Bus-Bar isolator jaws, ACB's,
- Conductive rails, Electric Motor Windings.

EazyMaintenance PCB

Enhances the working lifespan and reliability of electronic PCB assemblies. Seals-off dials, gauges, instruments..... improves reliability. Di-electric plastic coating of electrical control panels, etc.,

#21564 - PCB Coat (500ml) : Single component acrylic plastic coating; fast drying; conformal; water clear transparency; good electrical properties; high resistance to burning, heat, cold, salts, alkalies, mild acids-will not peel, crack or dis-color; solder through and removable if required; lasting protection against wear, handling and oxidation; excellent thermal conductivity.

#21565 - Insulating Varnish (500ml): Tough flexible air dry insulation and protection coating. Thoroughly penetrates into windings & coils and seals out dust and moisture. Designed to be used as a finishing coat over existing impregnating varnishes as well as to provide class H insulation & protection on unprotected motor surfaces (slots, clamps, plates) so as to enhance the life and reliability of the system as a whole. Also available in Green & Clear colors.

EazyMaintenance IV

Flexible, conformal, finishing, insulation & protection on windings, coils; insulation on clamps, plates, poles, cage, weakened insulation, Thermostats, High voltage circuits, ect.,

EazyMaintenance RK

- Chutes,
- Transformers,
- Cables,
- Junction boxes.

#21567 - Rubber Kote (500ml): Excellent chemical, abrasion & salt water corrosion resistance. Flexible rubberized coating can also be used for leak proofing (overlay on epoxy repairs), reducing vibrations, sound proofing, heat insulation & protection of precision equipments.

CLEANERS

EazyMaintenance SS

- Insulators, Bus-Bars, Generators,
- Commutators, Cables, Slip-rings,
- Motor Casings, Connections...
- Prevents short circuiting, Leakages,
- Corrosion, Fire hazards.

#21571- Safety Solvent (500ml) : No CFC's, non-flammable, non-conductive, non-corrosive, ultra high di-electric strength, high KB value, fast drying "on-line" cleaner & degreaser. Leaves no sticky film, powdery or oily residues. Combination of least toxic, user & workplace friendly solvents. Provides powerful consistent cleaning power.

#21572 - Electronic Cleaner (500ml) : Fully safe on plastics & metals. Fast cleaning, residueless, low odor formulation. Fully di-electric. Mild flux removing action. Excellent "offline" cleaning and flushing action with least possibility of equipment damage.

EazyMaintenance EC

Safe and easy cleaning of sensitive plastic, electrical and electronic components - relays, limit switches. PCBs, preventing leakages, short circuiting.

EazyMaintenance SC

- It is Non-flammable,
- Non-ozone depleting,
- Computer & Electronics Cleaner.

#21573 - Safe Clean (500ml) : Non-flammable, precision synthetic cleaner cum degreaser designed for use in electrical maintenance. Di-electric & residueless. Safe for use on most plastics (test before use on ABS, acrylic & polystyrenes). Ozone friendly formulation.

#21575 - Air Duster (500ml) : Pressurised clean dry gas where the aerosol is filled with the gas in liquid form. which releases gas and directs the gas flow through a directional spray button. The gas jet can be used to remove dust and debris from delicate parts and electronic components.

EazyMaintenance AD

Blend of specialised gasses that contain no moisture. It is a non-flammable liquified propellant. it will not cause any corrosion or tracking on printed circuit boards, cameras etc.
