### TECHNICAL FEATURES

The battery is the heart of the vehicle. It is the power supply for the starter and other electrical systems and accessories. The automotive Volatic Batteries line has a full range of applications as it is the absolute leading battery in automakers. Choose Volatic Batteries and go far beyond the match.

We offer a complete line of maintenance-free lead-acid batteries for passenger cars. Our precision focussed manufacturing facilities use state-of-the-art technology to ensure that our batteries deliver high performance and a smooth driving experience.

We manufacture premium maintenance-free automotive batteries for heavy-duty commercial vehicles. These vehicles need batteries that are exceptionally robust and powerful to meet the heavy-duty demands placed on them round the clock under all sorts of terrain and weather conditions.

Volatic Batteries Elite

The Volatic Batteries range is ideal for highly equipped vehicles as well as Start-Stop systems. It has 36 months warranty protection.

- Calcium-calcium-tin and calcium-silver maintenance-free battery
- Expanded metal grid technology
- Cantered cast-on-strap cells
- Double chamber container with condensation mechanism
- Built-in flame arrester
- Best grade virgin lead, pp and chemicals
- Robust design to perform in all terrain conditions
