TURMERIC POWDER

Jaintia Hills in Meghalaya

Vegan | Organic Certified | No Preservative | High Curcumin Content

7-10% Curcumin

Naturapure LS - Turmeric is grown in Odisha and nutrient rich forest hills of Jaintia in Meghalaya, a small village really hard to trace named Lakadong. Farmers take the utmost care to ensure the best quality. Free of any chemical toxic based pesticides or fertilizers, thus making it completely natural. It is one of the most exotic turmeric in the world having up to 8-10 percent curcumin content.

Our turmeric is grown by small farmers in the fertile regions of Meghalaya using natural methods. This freshly harvested turmeric is then boiled, polished to remove the skin, and powdered before bottling.

Turmeric is like no other spice. That golden powder, ubiquitous in Indian kitchens and many Asian cuisines is also an incredible health and beauty giver.

- Fighting chronic illnesses.
- Maintaining healthy cholesterol levels.
- Help in digestion, gas or bloating.
- Helps with Arthritis
- Treats condition-riddled skin.
- Anti-inflammatory properties.
