

MAGNETIC DRIVE SEALLESS PUMP

SPECIFICATIONS

These Parameters depend on size of Pump

- Temperature : Max 90 deg c
- Solid Size : Max 0.2 mm
- Solid : Max 10%
- Viscosity : 100 CP
- Suction : +ve or Flooded
- Cannot run dry nor Self Priming

SALIENT FEATURES

- No Seal, No Leakage
- Continuous Flow
- Silent in Operation
- 24 Hours Running
- Totally Eliminating outside Contamination
- Hence widely Used Biotech Industries

APPLICATION

- **ELECTROPLATING** : For Plating of Gold, Silver, Copper Solution.
- **CHEMICAL INDUSTRIES** : Transfer of Clear Acid, Costly Chemical, and Avoids smell of acid from Seal Area.
- **BIO TECH INDUSTRIES** : Prevent Bacterial Growth in Sealing Area.
- **PHARMACY LABORATORY** : For Continuous Sampling Circulation.
- **PHOTO FILM INDUSTRIES** : For Acid Wash.
- **SYSTEM MANUFACTURER** : Pump can be installed in the middle of system to avoid damage due to leakage in Seal Pump.
