Spectrcharge

SPECTRACHARGE is a magnified display to show the addition of charge on shop floor.

Spectrview will display the report from the spectrometer readings and **Spectrcharge** will display what addition is required if desired value is less or greater than expected.

- Two different displays for Spectrview and Spectrcharge.
- One display will show Spectrometer readings and other display will show the addition of 'Charge Required'.
- Displays are interconnected with each other.
- Flexibility in choosing the number of elements in display.
- Flexibility in choosing display sizes 1 inch, 2.3 inch or 4 inch.
- User interface to add Recovery, Element for Addition, Furnace Capacity.
- Logging of addition details and calculations.

Features

- Password protection for addition or deletion for recovery elements.
- Printing of Addition report using local printer attached to the computer.
- Acknowledgment on successful data transmission.
- Display of company name in rolling manner.
