

Moulded Doors

Moulded Panel doors exhibit a natural wood grain texture almost replicating real solid wood and are prefinished. Our range of moulded doors consists of different panel configuration for beauty as well as durability. We are associated with Craft Master International USA for HDF Moulded doors and have the largest range of 11 beautiful designs in Moulded doors. HDF doors are bonded with Phenol Formaldehyde Synthetic Resin and available in texture and smooth finish with various thickness widths and heights.

Pre-Laminate Doors

Northern Pre-Laminate Doors are specified where absolute face aesthetic uniformity is desired. These doors are laminated with high-pressure laminate sheet of 1mm. The base door is manufactured by seasoned battens and frames with waterproof PF resin. Laminate doors are available in broad range of design options, using high quality laminate sheet for zero maintenance and long life.

Veneer Decorative Doors

If you are looking to give your door an exquisite look, then Northern veneer doors are the perfect solution. Northern veneer door made from wide range of natural and recon decorative veneers sourced from across the country. Northern veneer doors are made with India's best hydraulic press in the supervision of qualified personals. ISI grade resin and thicker veneer is used for long life of door. Each doors are tested for water resistance shock absorption test so that you can enjoy its quality for years.
