

## Millennium combs

**1. Predator / Predator FT** - 95mm wide, medium bevel, for general purpose use. The widest comb in the range, this run-in comb offers the experienced shearer the advantage of easy penetration in fine or sticky wool. Suitable for early season shearing. The Predator FT is a full thickness comb for maximum life, and provides the experienced shearer maximum comb life when shearing open wool sheep.

**2. Premier** - 92mm wide, medium bevel, all purpose comb. The unique shape of the bottom tooth gives the penetration of a narrower comb in difficult conditions while retaining a full width of 92mm.

**3. Cavalier** - 92mm wide, medium bevel, for fine and open wool, an excellent general purpose comb for the experienced shearer.

**4. Senator** - 92mm wide, short bevel with a straighter bottom tooth, for good conditions. A popular general purpose comb on the shearing circuit.

**5. Maverick** - 88mm wide, medium bevel, for all wool types under any conditions. An excellent comb to use as an introduction to concave comb shearing and lamb shearing.

**6. Countryman** - 76mm wide, medium bevel convex comb. An extremely useful general purpose comb, suitable for all shearers, general shearing, show shearing and dagging.

## Cover combs

- designed to leave more wool on

**Protector** - 92mm wide and 6mm thick, 9 tooth comb to leave more wool on for protection.

**No 3 Wide** - 76mm wide, 13 tooth comb, that is 5.5mm thick and leaves more wool on for climate extremes or early shearing of show sheep.

## Shepherd/Shepherd's Pro Packs

**Shepherd Pack** consists of 1 Countryman comb and 2 GT4 cutters

**Shepherd's Pro Pack** consists of 1 Cavalier comb and 2 GT4 cutters

## Left handed combs

Several of our professional combs are also available as left handed combs on request.

## For fine wool

**Outlaw** - 93mm wide, long bevel for fine wool

**Sterling** - 92mm wide, long bevel for fine wool

## Millennium cutters

**XR4** - A full thickness conventional cutter, for longer life and durability, with a wide throw. Manufactured from the highest quality steel, hardened and tempered under atmospheric controlled conditions.

**XK4** - A new design cutter with straight gullets, made from the finest tool steel to increase life expectancy and durability. The cutter has a consistent medium wall thickness to improve cutting ability and make grinding easier. Always use this type of cutter with the Protector or any 9 tooth cover comb.

**GT4** - An advanced cutter at an economical price, with straight gullets.

## Cattle blades

**Champion Blades** - comb and cutter for use on sheep shearing handpieces/ Laser shear to allow cattle clipping, the comb CC23 or a HB23 butted blade can be bought separately for use with any cutter.

## Combs and cutters for narrow handpieces

**Olympic** - narrow comb for narrow handpieces, matched with the Colt cutter

**Colt (narrow)** - A cutter made for narrow handpieces, made to the same high standards as the rest of the range.
