

If someone does not believe that sun rises in the east, still the sun will rise in the east. It does not matter whether you believe it or not, black magic exists and will continue to.

It is true that we live in 21st century and the human being has landed on the moon but the rules of nature have not changed yet. Considering ourselves very advanced in science and overlooking the old science is the main cause that black magic is on rise, especially in Asia. Due to increased lust, jealousy, frustration, and greed for money, people are looking for short-cuts in life.

It will be easier to find a black magic remedy for you if you understand what exactly black magic is.

Tantrik Prayog : Major Causes

Whenever you face such situations, feel assured that someone has used Black Magic on you, as a result of which all your efforts become ineffective.

Though such prayog is not easy, but some Tantriks expertise in it and torture innocent souls at the behest of selfish and greedy people. Such Tantriks have made Black Magic their profession, and use it on others indiscriminately at the behest of their adversaries, to mint money. Thus the happy life of the people is spoiled.

Such so-called Black-Magicians, no doubt can harm others, but they do not possess the powers to counter such Tantrik moves. As a result the victim keeps on suffering and sometimes it leads to the death of the victim. It is in fact very easy to cause harm through Tantra, but very difficult to amend the damage done. In order to learn the art of saving, one has to undergo Sadhna and Siddhi, and only a Tantrik of high caliber can do so.

Some important things, which you should keep in mind-

In most of the cases the persons who do black magic are victim's relatives or close friends. So, keep a close watch on everybody. Do not tell anybody your secrets or which deity you worship. Avoid contact with such persons.

Look for the suspicious things like lemons, nails, ash, kumkum, haldi, etc. in and around your house or where you regularly go. Throw them into the river if you get any.

Worship the Lord. There is no force stronger than Him.

Worship Lord Hanumaan ji,. Hanumaan is famous for removing obstacles in our life. Offer him a red flower on Tuesdays and on. Do abhishek regularly in the temples. Visit the temple daily.

Do meditation regularly. Try keeping calm. Do not fight with anybody. Try to change mind of your enemies.

Take professional help from the persons who know how to remove black magic. But be aware as most of these people are fraud or they will misuse their power to earn money from you.

Worship your family deity. He always protects you from debacles. Therefore, It is a common practice in black magic in India to deprotect the victim from the grace of family deity, so that the victim can easily be harmed.

Try to be friendly with everybody around you. Even if people behave bad with you, you behave in a friendly manner with them.

Avoiding eating food or drinking liquids at suspicious peoples' home. They will give you ash of a dead person through it. Once eaten, it is hard to remove its effects.

Always keep a finance reserve for emergency. Do not take unnecessary risks.

Keep a dog or a cat in your house. Sometimes, the spells casted on you affects them first and you get saved.

The best way to get out of life problems is consultation. Consulting with the right person about your life problems

Take a lemon. It would be great if it has one edge. On a full-moon or no-moon night, tell the victim to sit on the floor facing east. Keep the lemon in your left hand and put your left hand on the victim's head in such a way that the lemon just touches the head of the victim. Now, cut it vertically with a knife along the vertical axis. Fill some

Kumkum and Turmeric in it and move it from head to the floor with lemon in your right hand but only hand touching the floor and not the lemon. Do it for seven times. Now, without wearing a sandal or shoe and without talking to anybody go out of your house and throw that lemon at a crossway or at a crematorium or at a dirty place. While returning from there, wash your feet with water and then enter the house. The victim should not go out of the house during this procedure.

Take some rice on a paper and add some curd to it. Put an egg in it. Add some Gulal to it and move the mixture from head of the victim to the floor and keep in at a crossway or at a crematorium. Do this on full-moon or no-moon night.
