## DIGITAL MANOMETER

We are known as the reputed organization in this field of operation, engaged in offering a wide array of excellent quality **Digital Manometer** that is used to measure pressure and vacuum in liquids. Offered manometer is manufactured using high grade components in compliance with international quality standards. The offered manometer can get from us in various specifications according to the specific requirement of our prestigious patrons. Tested on various parameters, this **Digital Manometer** is available at market leading price.

### Features:

Large Dual LCD with backlight

Data hold

Max / Min / Avg value with relative time stamp

Zero adjust, offset and DIF function

Auto Power off

Low battery indication

USB Computer Interface (Advanced Software program for all windows)
