

moviBOOST M - Water Booster pumpsets

Applications :

- Suitable for water pressure boosting systems
- Multi-jet shower panels
- Domestic water supply systems
- Irrigation and small industrial water supply

moviBOOST M - Water Booster pumpsets

moviBOOST M ring section multistage monobloc pumps with squirrel cage induction motor. moviBOOST M comprises of pump with accumulator tank, pressure switch, pressure gauge and non-return valve.

Features :

- Robust construction
- Stainless Steel hydraulic components
- Low vibrations and noise
- High efficiency

Operating data :

Pump sizes : 02 models
 Capacity : up to 200 lpm
 Head : up to 51 mtr.
 Motor Power : up to 1.5 kW
 1Ø 230 Volts, +6% -15%
