

**Note: We will make all types of POWER SUPPLIES (Variable, Fixed, Dual, Multiple Output, Programmable) SERVO STABILIZERS, SMPS, BATTERY CHARGERS AS PER**

**CUSTOMER REQUIREMENT**

- |     |                 |   |   |
|-----|-----------------|---|---|
| 01. | OUTPUT VOTLAGE  | : | O/P Voltage (Will depends on your requirement)  |
| 02. | LOAD CURRENT    | : | O/P Current (Will depends on your requirement)  |
| 03. | INPUT VOLTAGE   | : | 230V AC, +/-10%, Single Phase, 50Hz   |
| 04. | LINE REGULATION | : | 1%  |
| 05. | LOAD REGULATION | : | 5%  |
| 06. | RIPPLE-RMS      | : | <100mV  |
| 07. | CURRENT LIMIT   | : | 120% of the rated current   |
| 08. | EFFICIENCY      | : | Better than 80%   |
| 09. | PROTECTIONS     | : | (a) Unit is protected against input surges<br>(b) Output is protected against over loads and continuous short circuits                                      |
| 10. | INDICATIONS     | : | (a) AC ON LED<br>(b) One DC ON LED<br>© One 3 ½ Digit digital volt meter for output voltage.<br>(d) One 3 ½ Digit digital current meter for output current. |
| 11. | CONTROLS        | : | (a) One ON/OFF switch to ON/OFF the unit.<br>(b) One potentiometer with lock nut to set the output voltage at required level                                |
| 12. | TERMINATION     | : | Output is terminated on binding terminals provided on Front Panel   |

**Please Contact for your any power Electronics requirement**
